

**Fundamental Techniques of
Evaluation and Management for
the Spine — Level II**

**MICHIGAN STATE UNIVERSITY
ATHLETIC TRAINING
&
SPORTS MEDICINE**

**ATHLETIC TRAINING
CONTINUING EDUCATION PROGRAM**

July 11, 2010 – July 14, 2010

The Jack Breslin Student Events Center

Michigan State University

PROGRAM DESCRIPTION

The workshop is designed to provide fundamental knowledge of clinical techniques used in the identification and management of structural pathologies of the sacrum, rib cage, cervical spine and extremities. The program includes didactic classroom work that is integrated with extensive “hands-on” experiences. The focus of the educational sessions is on the application of clinical techniques to be used in the athletic training room for the identification and management of structural pathology of the spine and pelvic girdle. The objectives of the course are:

1. To describe the principles and techniques for the structural evaluation of the spine for practicing athletic trainers.
2. To learn and practice the principles and techniques of layer palpation, segmental vertebral motion and vertebral dysfunction.
3. To learn and practice the principles of musculoskeletal screening for structural pathologies in the rib case, cervical spine and extremities.
4. To learn and practice muscle energy techniques to correct structural dysfunctions of the rib case, cervical spine and extremities.

Text Books:

Required—Greenman PE. *Principles of Manual Medicine*. 3rd Edition.: Williams & Wilkins; 2003.

FACULTY

Dave Carrier, MS, ATC – Adjunct Faculty in the Department of Kinesiology. Athletic Trainer Spartan Ice Hockey.
